**Email**
levmisiliuk@gmail.com

**Address**
Dnipro
Nemirovicha-Danchenko 46/6

## Education

2018
**General education**
School №11

## Expertise

- JS, Vue 2,3
- Nuxt
- React, Next
- HTML/CSS,SaSS
- Python, Flask
- Angular

## Language

**English. B2**

**Ukrainian. Native**

## Experience

**2019 - 2020**
SplineStudio. Dnipro
### Quality Assurance

I was involved in frontend and API testing,
communication with the client and small managerial tasks like closing and starting sprint prioritization for developers and other members of our team.

**2020 - 2021**
SplineStudio. Dnipro
### Frontend Developer

I have been working on a "Window Builder" project. I managed to work with Angular 1. The tasks included both code refactoring and the implementation of new features. I gained experience with legacy code development and got more familiar with JavaScript

**2021 - 2022**
SplineStudio. Dnipro
### Frontend Developer

At this point in time, I was working with "Rehau" company. The tasks included the development of the landings page, discussion of new potential projects, and business solutions

**2022 - now**
SplineStudio. Dnipro
### Frontend Developer

I work on a European project, which is associated with the provision of transportation services. I communicate directly with the customer and discuss the details of tasks and details of development. The main tasks are the implementation of new tables and forms of creation of different instances etc.
